

序号	名称	文字符号
1	穿热镀锌钢管	SC
2	七孔梅花管	M

The diagram illustrates two methods for creating a facade:

- 面砖饰做法 (Facade with Tiles):** This method involves a concrete structure (混凝土) with a layer of tiles (面砖) applied to the exterior. The tiles are shown in a grid pattern.
- 沥青青面做法 (Facade with Asphalt Green):** This method involves a concrete structure (混凝土) with a layer of asphalt green (沥青青) applied to the exterior. The asphalt green is shown in a grid pattern.
